SUMMARY

Data-driven Computer Engineering graduate with hands-on experience utilizing Python (Pandas, NumPy), SQL, and Power BI to clean, analyze, and visualize datasets. Completed multiple analytics projects and industry job simulations with Deloitte, Quantum, Tata, and Accenture, delivering actionable insights through interactive dashboards and statistical analysis. Skilled in data cleaning, exploratory analysis, and translating business requirements into data-informed solutions. Eager to contribute analytical and problem-solving skills to a dynamic data analytics team.

EDUCATION

Bachelor of Engineering in Computer Engineering <i>Keystone School of Engineering (SPPU)</i>	Pune 2023 - 2026
Diploma in Information Technology Engineering <i>MIT Polytechnic (MSBTE)</i>	Kothrud, Pune 2020 - 2023

SKILLS

Languages: Python, SQL, HTML/CSS, JavaScript
Analytics: Data Cleaning, Visualization, Statistical Analysis, Dashboards, Reporting
Libraries: Pandas, NumPy, Matplotlib, Seaborn
Database: MySQL
Tools: Excel, Power BI, Jupyter, VS Code, Git/GitHub, Canva
Professional Skills: Analytical & Critical Thinking, Problem Solving, Communication, Requirement Gathering, Time Management

EXPERIENCE

Vitruexa <i>Project Intern</i>	Pune Jan 2025 – Feb 2025
- Developed responsive web applications using HTML, CSS, and JavaScript. - Collaborated with team members to understand project requirements and deliver solutions.	
Elite Software <i>Project Intern</i>	Pune Jan 2025 – Feb 2025
- Developed web applications and worked with MySQL databases. - Supported project development, documentation, and requirement analysis.	

PROJECTS

- Sales Data Analysis** | *Python, Pandas, NumPy, Excel*
- Analyzed a 1000-row sales dataset using Python and Excel, performing city-wise, gender-wise, age-wise, monthly, and weekly sales analysis along with payment mode analysis and top product identification by sales and profit.
 - Created visualizations using Matplotlib and Seaborn to present key business insights.
- Student Performance Analysis System** | *Python, Excel*
- Analyzed student performance data using Python and Excel to identify academic trends.
 - Performed data cleaning, statistical analysis, and visualization for meaningful insights.
 - Developed reports to support data-driven academic decision-making.
- COVID-19 Data Analysis** | *Python, Excel*
- Analyzed COVID-19 case data to identify trends across countries and time periods.
 - Cleaned and processed public health datasets.
 - Created visualizations to compare confirmed cases, recoveries, and deaths.

CERTIFICATIONS

Techscaler Solutions – Data Analytics Course
Deloitte Australia – Data Analytics Job Simulation
Quantium – Data Analytics Job Simulation
Tata – GenAI Powered Data Analytics Job Simulation
Accenture North America – Data Analytics Job Simulation
Tata – Cybersecurity Analyst Job Simulation
